

Cybersecurity: the mitigation strategies

The third webinar of our series

24 March 2016 - 10:30 to 12:00 (CET time)

A Joint conference with ecoDa/AIG and FERMA

Cyber Security - the mitigation strategies

The third **webinar** of our series

Date and Time: Thursday 24 March 2016 from 10:30am to 12:00pm Central European Time

Topic: Cyber Security: the mitigation strategies - how to identify, assess and mitigate cyber risks.

The following points will be discussed:

- What level of awareness should Boards have? How much time should Boards spend on cyber/risk management issues?
- The Risk Manager must be responsible, as for others risks, for the quantification aspect of cyber security. It is a necessary step towards understanding and managing the exposure of the company. He/she should act as a facilitator between the Board and the operational department (IT, Finance, Legal and other functions).
 - How can Risk Managers bring unique added value in identifying and quantifying risk exposure?
 - When an interrelationship exists between the Risk Manager and the CIO (Chief Information Officer) or their equivalent, is it complementary and symbiotic?
 - To whom should the Risk Managers report the exposures, the liabilities, and the potential correlations or interconnections with other risks?
 - How would they propose relevant mitigation strategies to be endorsed by the operational departments and the Board?
- In case of a claim, how should the confidentiality of critical information be managed when it is provided to multiple stakeholders (insurers, brokers, loss adjusters, public authorities)? Are the companies ready to grant access to their confidential systems and processes to those third parties?

This is a key subject to unlock the cyber insurance development and to support the economic growth the Digital world is bringing to Europe.

MODERATOR

Dr. Roger Barker - ecoDa Director of Corporate Governance and Professional Standards at the Institute of Directors (UK)

He is Senior Advisor to the Board of ecoDa (European Confederation of Directors' Associations) and Chairman of the ecoDa education committee. He is a board member of European Women on Boards ASBL. He sits on several corporate governance advisory boards, including those of the Institute of Chartered Accountants in England and Wales (ICAEW) and ISS European Governance Exchange. Dr. Barker is a visiting lecturer at the Said Business School (University of Oxford), ESSEC (Paris), UCL (London), Birkbeck (London) and the Ministry of Defence (UK). Dr. Barker's book, *Corporate Governance, Competition, and Political Parties: Explaining Corporate Governance Change in Europe*, was published by Oxford University Press in 2010. He is also the author of the IoD's main guide to the role of the board, *The Effective Board: Building Individual and Board Success* (Kogan Page, 2010).

During the first part of his career, Dr. Barker spent 13 years as an investment banker, in London and Zürich, with UBS and Bank Vontobel. He has a doctorate in Corporate Governance from Oxford University, where he was a Lecturer at Merton College, and also has undergraduate and postgraduate degrees in economics, finance and political science from the Universities of Cambridge, Southampton and Cardiff.

SPEAKERS

Julia Graham - Technical Director of AIRMIC, the UK association for risk and insurance management professionals, FERMA Board Member and former President (2013-2015).

Julia Graham is a former FERMA president and Chief Risk Officer of the legal firm DLA Piper where she was responsible for the development and delivery of the Firm's Risk Management strategy and Framework and the Firm's risk financing solutions.

Julia has over 35 years' experience in managing risk, compliance and insurance. She is a Fellow of the Chartered Insurance Institute, a Chartered Insurer and for the last four years a Judge at the British Insurance Awards. She is also a fellow of the Business Continuity Institute, a member of the Working Group and Liaison for FERMA on the development of ISO 31000 the risk management standard and associated implementation. She is Chair of the Risk Panel for the Managing Partner Forum, a past Chairman of AIRMIC and a Board Member of FERMA.

Richard Knowlton - CEO, Internet Security Alliance for Europe (ISAFE)

Richard Knowlton is the Executive Director (Europe) of the Internet Security Alliance, a non-profit association which works with business to develop best practice on cyber threat management issues. The former Corporate Security Director of Vodafone Group (2009-2015), Richard earlier worked in Italy as Head of Security Global Operations with the UniCredit Group, the largest bank in central and eastern Europe.

Richard is an honorary Life Member of the International Security Management Association (ISMA), and a regular speaker and commentator on security issues. Richard served in the UK Foreign Service before entering the corporate sector. He is based in Italy.

Marc Vael - ISACA

Marc Vael has three Master's degrees and several certifications. Marc is Chief Audit Executive at Smals, a Belgian IT company with 1.800 employees working for Belgian Federal Social Security Institutions. Marc has +20 years active experience in risk and information security management, BCM/DRP, privacy and IT Audit. Marc is current president of ISACA Belgium, guest professor at Antwerp Management School, Solvay Brussels School, TIAS and HOWEST, deputy member of the Flemish Privacy Commission, board member of SAI and member of the Permanent Stakeholder Group of ENISA.

Mark Camillo - AIG, Head of Cyber and Professional Indemnity

Mark Camillo is Head of Professional Indemnity & Cyber, EMEA and is responsible for the PI, A&E, and CyberEdge® suite of end-to-end risk management solutions at AIG. Prior to this role, Mark led the cyber team for the Americas including oversight of the Personal Identity Coverage (PIC) and Payment Fraud Products. Mark joined AIG in 2001 and has held positions of increasing management responsibility in various parts of the organization including eBusiness Risk Solutions, Affinity Group, Accident & Health, Professional Liability, and the Fidelity team. Prior to AIG, Mark worked in sales, marketing, and product development for Dun & Bradstreet (D&B) and SITEL Corporation. Mark has a Masters of Business Administration from SUNY Buffalo and a Bachelor of Science degree from the University of Wyoming.
