SPEAKERS

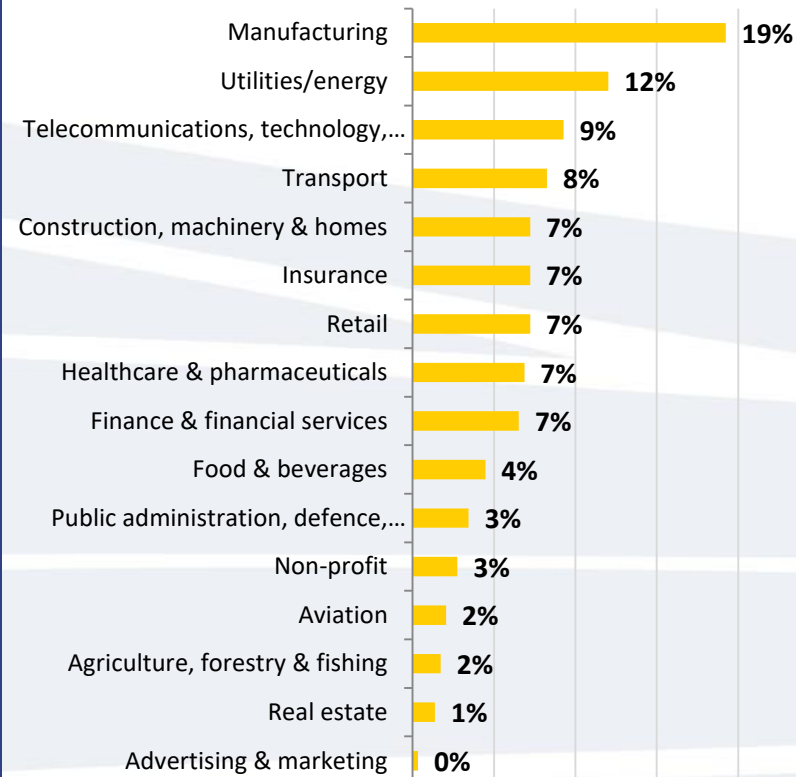

- **Athina Pehrman**, Group Risk Manager at Electrolux Professional Group, a sustainability leader in the appliance industry. President of SWERMA (Swedish risk management association)
- **Melanie Steiner**, Board Member, US Ecology, Inc., a leading provider of environmental services to commercial and government entities. Former CRO.
- **Typhaine Beaupérin**, CEO of FERMA, moderator.

FERMA's COVID-19 Survey

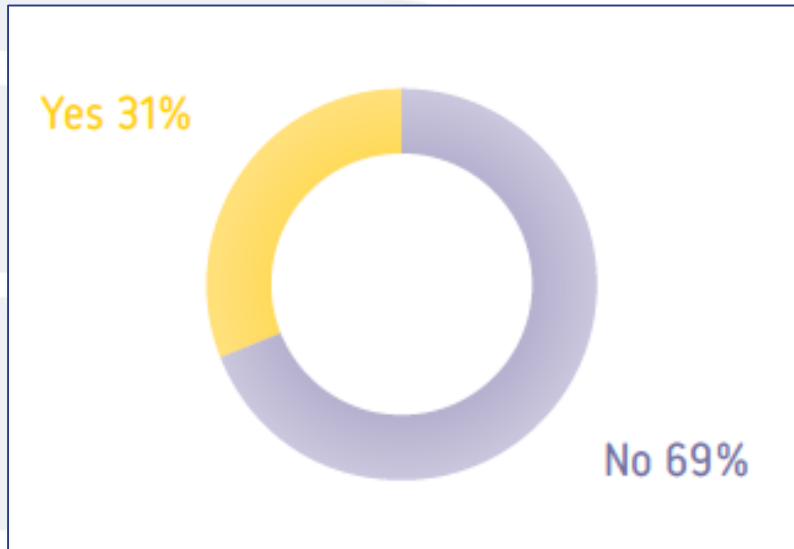

- Data collected through FERMA's 22 Member Associations between 28/9 and 20/10
- 314 Responses from 21 countries
 - Well balanced in terms of sector (see right)
- 22 questions divided into pre-crisis / during-crisis / reflections

Which sector best describes the operations of your organisation?

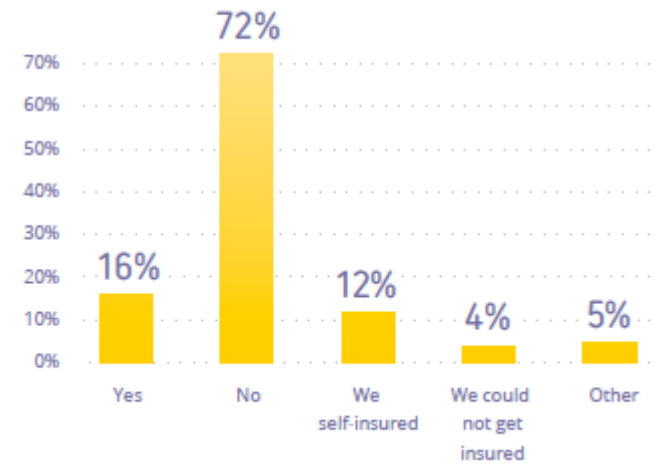

One year ago, was a pandemic part of your organisation's risk register?

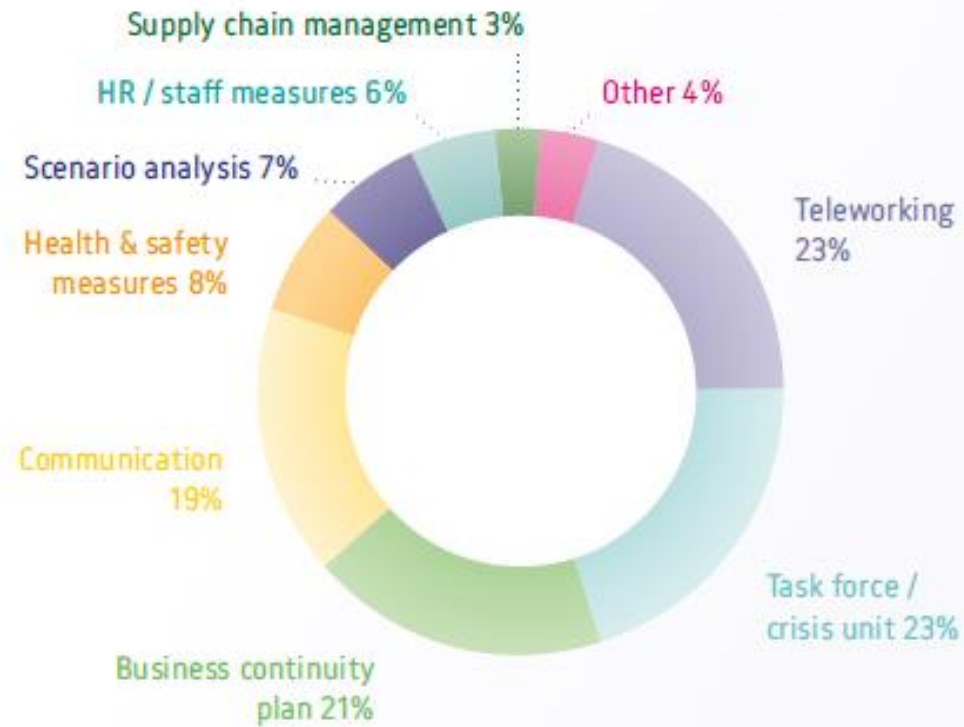

Before the outbreak of the virus, did your organisation have a risk transfer mechanism in place for pandemics, such as an insurance policy?

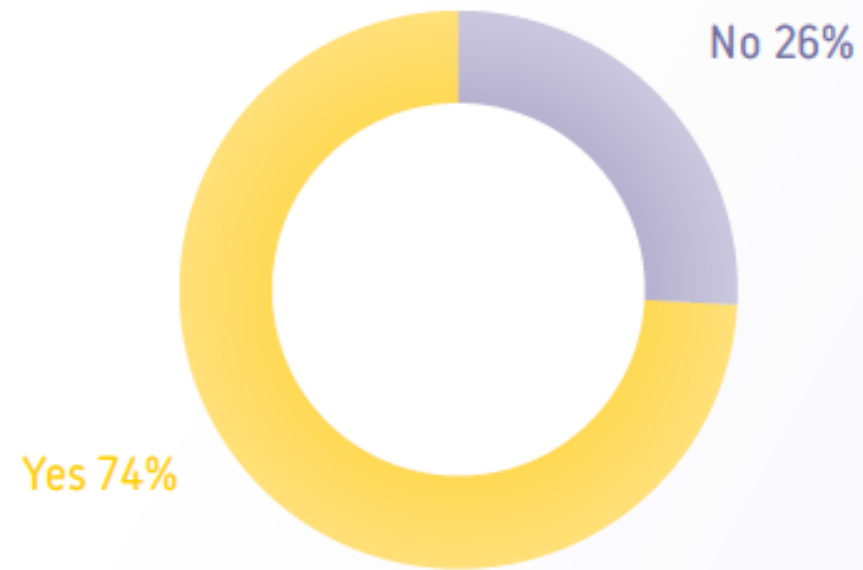

Could you provide an example of good risk management practices in your organisation during this crisis?

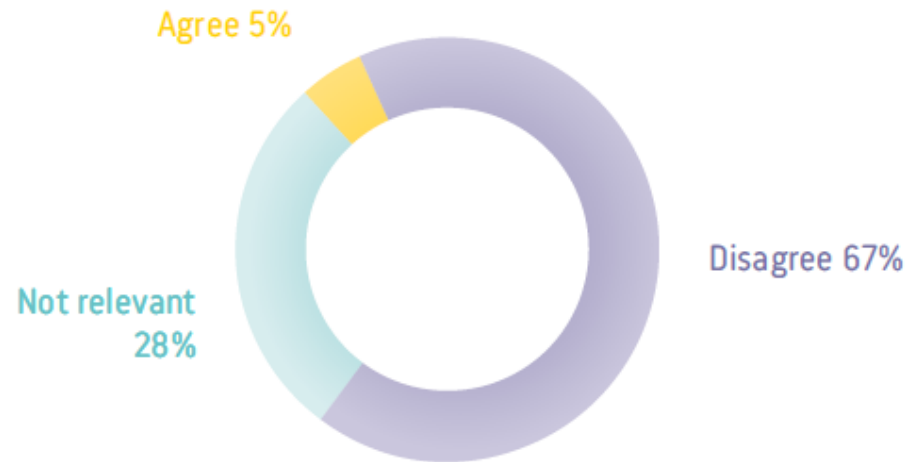

Did your organisation already have a Business Continuity Plan in place before the outbreak of COVID-19?

To what extent do you agree with the following statement: 'insurance has provided my organisation with coverage for the business interruption resulting from this pandemic' ?

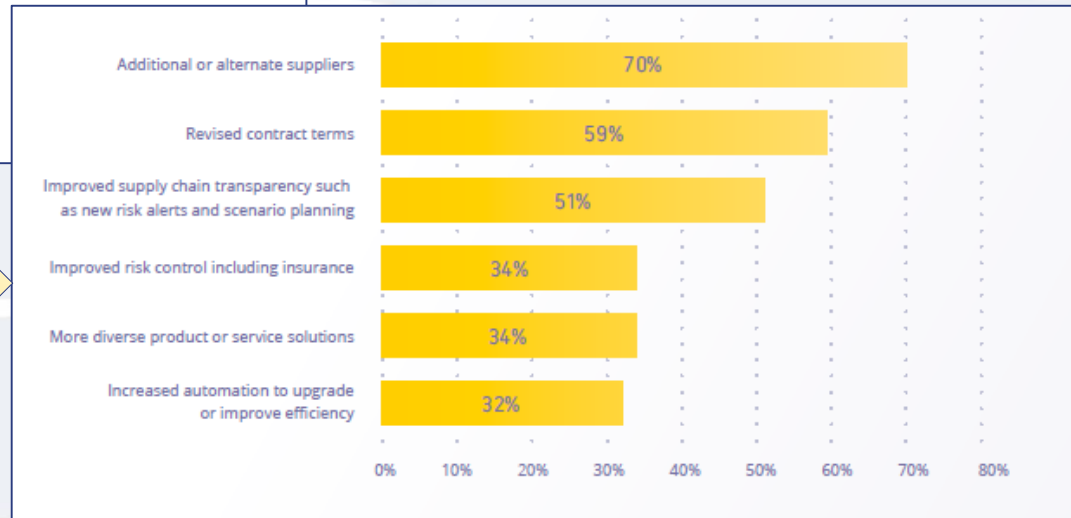

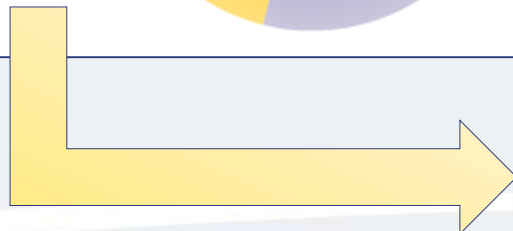

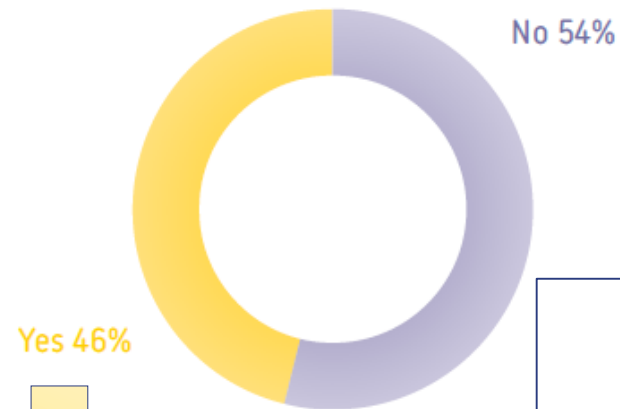

To what extent would your organisation be interested in a non-damage business interruption insurance product that provides your organisation with coverage in event of pandemic (or other catastrophic events) ?

Does your organisation plan to make changes to the supply chain as a result of this pandemic?
