WEBINAR: People, Planet & Performance

### AGENDA

- Opening
- Introduction of the guide “People, Planet & Performance”
- Panel discussion
- Q&A with audience
- Closing

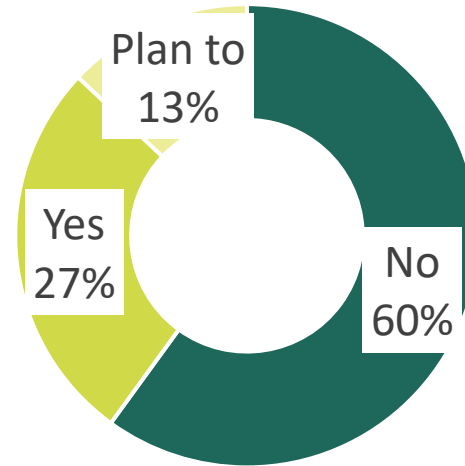

# More is happening on sustainability every day

## Risk manager's contribution to sustainability:

- Currently, 40% of risk managers play a specific role on sustainability in their organisations...
- There is room for an increase

*Is the risk manager playing a specific role regarding ESG-related risks in their organisation?*

WEBINAR: Global risks and resilience

# Our speakers

**Adriana  
Cavaliere**

Corporate Risk Manager  
at Skeyes, public  
company in charge of air  
traffic safety in Belgium

Paduano**

Chief Risk Officer and  
Sustainability Director at  
Sogefi Group

**Typhaine  
Beaupérin**

Chief Executive Officer at  
FERMA

# Hence our guide

- We define sustainability as

*encouraging businesses to frame decisions in terms of financial, environmental (including climate, biodiversity), social and human effects ensuring resilience and long-term value creation.*

- This guide has two goals:
  - To be a practical guide for risk managers to pick up the topic
  - To highlight existing good practices
