February	6	COMISIÓN TRABAJO - CRO SEGUROS	HIBRIDO	1	2	
February	6	WEBINAR - "Allianz Risk Barometer"	Online	1	1	Drawn up by Allianz Commercial, it is now in its 13th edition and is full of interesting food for thought thanks to the opinions of the 3069 risk management experts who participated in the survey. Over the years we have seen that damage from business interruption and cyber risk alternate in the first two positions both globally and in Italy, while third place more reflects the moment and is influenced by the problems that companies face in different countries in which they operate.

February	6 - 7	ALM - Think globally, act "glocally"	Hybrid	4	8	The aim of the course is to analyse, simulate and quantify the economic-financial-patrimonial effects of a business interruption on a company, starting from the analysis of its financial statements and the dynamics that regulate its preparation. Furthermore, among the topics covered, the income and financial effects deriving from the occurrence of an accident and the cost determination system to highlight the potential impact on the "value" of the company in the event of business interruption.
February	6	workshop knowledgecenter Claims		1	2	workshop about ESG/Greenwashing/directors liability

February	13	CONSEJO ASESOR	HIBRIDO	1	2	
February	14	Seminar with partner Zurich	Zurich Stockholm office	1	2	Afternoon seminar on ESG strategies that puts Risk Managers in the center.
February	15	WEBINAR - "The mandatory scheme for covering catastrophe risks for businesses"	Online	1	1	It is one of the main innovations of the 2024 Budget Law: the compulsory insurance scheme that will protect Italian companies from the risks of natural disasters. It will come into force this year (but a postponement has already been announced) and will cover damage caused by - specifies the law - earthquakes, floods, landslides, inundations and flooding. However, the list is not exhaustive because the matter, together with some of the main aspects of the insurance scheme, will be defined by a subsequent ministerial decree. Failure to comply with the insurance obligation by companies must be taken into account when assigning public contributions to companies. For companies that refuse coverage, a fine is foreseen (from 100 thousand to 500 thousand euros). However, these will be able to reinsure the risks with Sace which will be able to pay up to a
February	20 - 21 - 22	II Module ALP "Risk and Insurance Management Advanced"	Online	3	6	This module explores the process of identifying, assessing and quantifying risks within an organisation, describing the spectrum of analytical tools and techniques available for Risk Assessment. The objective of this first part is to acquire the ability to map different categories of risks, such as probable, accidental, extraordinary risks, to which the business is subject, using various methodologies, from theoretical valuation to forecasting methods. In the second part of the module, the techniques and tools for the treatment of risks are described, among which an important place is reserved for Risk Transfer tools.
February	20	Exchange	Brussels	half-day	2	Exchange (Supply Chain)
February	21	CURSO RC PROFESIONAL	VIRTUAL	2	4	
February	27 - 28 - 29	II Module ALP "Risk and Insurance Management Advanced"	Online	3	6	This module explores the process of identifying, assessing and quantifying risks within an organisation, describing the spectrum of analytical tools and techniques available for Risk Assessment. The objective of this first part is to acquire the ability to map different categories of risks, such as probable, accidental, extraordinary risks, to which the business is subject, using various methodologies, from theoretical valuation to forecasting methods. In the second part of the module, the techniques and tools for the treatment of risks are described, among which an important place is reserved for Risk Transfer tools.

March	12	WEBINAR - "D&O, an evolving market: what awaits us after the end of the hard market?"	Online	1	1	In the D&O sector, recent years have been characterized by a hard market phase, but the first evidence from the end of 2023 would seem to show a countertrend. In fact, if in the past the growing number of claims and the estimated impact of Covid19 had led insurers to correct premiums, today - thanks to the entry of new players and a once again profitable technical performance - there is a reversal of the trend. In the webinar "D&O, an evolving market: what awaits us after the end of the hard market?", organized by ANRA and QBE Italia on Tuesday 12 March from 9.30 to 11.00, we will take stock of the current situation of the D&O market and analyze the factors which led to this trend reversal, also trying to provide some predictions for the near future.
March	12 - 13 - 14	III Module ALP "Risk Control, Mitigation and Treatment Techniques"	Online	3	6	The third ALP module describes the mechanisms and tools for risk management, with particular emphasis on control and mitigation measures.
